To whom it may concern,

I have had the pleasure of working with Stella Pavlides and her three pets (Buddy, Buster, and Joey) for the past 7 months. Stella is one of those clients that I enjoy working with because every discussion and every medical decision is made in the best interest of her pets to ensure their best quality of life. There is never any debate, which makes my job easier and her pets happier and healthier. Stella has a huge heart for animals. She has a habit of adopting those animals that either due to behavioral or health reasons, are not ideal candidates for adoption. Without blinking an eye, she takes these pets home and gives them a wonderful life, never hesitating to provide them with whatever they need. Stella's fight for these pets with degenerative valve disease is a noble one. It is an effort to provide the option for ideal medical treatment for dying pets- a potentially lifesaving procedure. These are members of people's families, and just like with her owner furry family, Stella cannot stand by without trying to better the lives of animals in need.

Sincerely,

A handwritten signature in cursive script, appearing to read "Alicia Welsh".

Alicia Welsh, DVM
