To Whom It May Concern:

Please accept this letter in support of Stella Pavlides' efforts to advance animal welfare through her nonprofit organization 2 Dogs on a Mission Inc. She has been a tireless champion for human welfare through her work with children with vitiligo, and I have no doubt she will be equally successful in her efforts to provide care to animals. I have known her as a client for the past seven years, during which time she has provided only the best care for her animals. She has rescued a number of dogs that would be otherwise unadoptable and has navigated their challenging medical diagnoses. She was diligent in her efforts to improve their condition, and she displayed both tenacity in finding them the best care available but also understanding in patiently allowing them to adapt to new circumstances when they came from troubled backgrounds and were understandably wary of people. I applaud her efforts to try to expand her reach and to help the countless numbers of animals that require care. I have no doubt she will be a reliable partner and dedicated steward in those efforts.

Warm regards,

A handwritten signature in cursive script that reads 'Justin Shmalberg'. The signature is written in black ink and has a long, sweeping tail that extends to the right.
